

SANTA FE AND "BORAX" SCORE ON SENATOR CLARK

Will Beat the Salt Lake
Line to Bullfrog.

ENTERPRISE TO COST OVER
TWO MILLION DOLLARS

The justly celebrated "Borax" Smith acting in conjunction with the Santa Fe, bids fair to outdistance interests backing the proposed Clark line, building into Bullfrog from Las Vegas, Nevada. Mr. Smith's original intention was to build the Clark line. He really was at work on the enterprise when disputes arose that made him abandon it. He at once turned his attention to the Santa Fe, and after arranging with the Clark interests upon a basis mutually satisfactory, he turned over his right of way and other tangible assets and began making other arrangements.

Then his outfit was transported to Ludlow on the Santa Fe, and before the opposition had realized it Mr. Smith was rushing work on an entirely new line to his borax mines in Death valley, with Bullfrog as his real destination.

John Ryan, who is Mr. Smith's superintendent of construction, is in Los Angeles, where he informed a reporter that rapid progress is being made on the new line out of Ludlow. Eighty cars of rails and 200,000 lbs. have been contracted for the steel being unloaded at this time. Two hundred men and as many teams are at work on the enterprise and 15 miles of the line have been graded. It will be 160 miles long, and according to Mr. Ryan will be completed within a year.

It is insisted the Santa Fe has no ownership in the property at this time although it is not denied that when completed the feeder probably will be annexed, as was done in case of the line to the Grand Canyon and other properties. It is insisted the new road is a hundred miles shorter to Bullfrog from Los Angeles than is the Clark line from Las Vegas, and that it will open a vast and profitable section which will be tributary to southern California. The enterprise will necessitate an expenditure of \$2,000,000. Ultimately the road will be extended to Tonopah.

SURVEY COMPLETE FOR DAWSON SHORT LINE

Austin, Tex., Nov. 16.—The preliminary survey for the Las Vegas cut-off of the El Paso & Southwestern railroad has been completed. The survey provides for a short line from the Dawson coal fields to a point on the eastern division of the El Paso & Southwestern, near Torrance, the line touching the town of Las Vegas. It is stated that the new route will make a considerable saving in the distance required to haul the output of the Dawson mines to the Arizona copper mines of the Phelps-Dodge company, which owns the railroad in question, besides obviating the necessity of using the Rock Island line between Tucuman and Santa Rosa.

FIRST ORANGES GO THROUGH IN EIGHT DAYS

The first carload of oranges that went forward this season from southern California—a shipment of Orange county navel—reached its destination in the east in eight days, and the shipper, the Alland Fruit company of California, has received a telegram announcing that it was satisfactory to the recipient. The fruit was well colored and sweet for so early a shipment. The shippers have been requested to duplicate the shipment, which is pointed to as an indication that the early fruit is well received.

NEW TIMBER RAILROAD BUILDING NEAR WILLIAMS

The local lumber company is making arrangements for the building of a new line of railroad from Bellemont north to tap a large tract of timber recently purchased from the government. It is not thought the road will be in operation before some time next summer, as the work of cutting where the camps are now located will not be finished before that time, but owing to the increased capacity of the mill it has been thought best to take time by the forelock. When the mill, the capacity of which is now being doubled, is completed, it will mean that the company must bring in daily twice as many logs as at present, hence the preparatory steps in the way of transportation.—Williams News.

ATCHISON PAYS \$50 FOR A FIVE CENT SUIT

The suit against Judge Curran, of Tazewell county, Illinois, which was brought by the Atchison, Topeka & Santa Fe railroad to collect five cents storage charges, has been dismissed, and the costs, amounting to \$50, paid by that company. Some time ago the judge ordered a door for his wife. It came, but he claims that he was not notified of its arrival. When he went after it a bill of five cents storage charges was handed to him. He declined to pay it, and suit was filed. The case was due to come up in the circuit court soon, but the road decided that it would be cheaper to withdraw the action and pay the costs.

RAILROAD IS RESPONSIBLE FOR EMPLOYEE'S BAD TEMPER

In the case of the Gulf, Colorado & Santa Fe Railway company against J. T. Luther, an appeal from Hunt county, the court of civil appeals at San Antonio has decided that a railroad is responsible for abusive language used by a custodian of a waiting room toward passengers waiting for a train. The appellant, who was plaintiff in the lower court, recovered \$250 from the railroad company for the suffering of the plaintiff's wife by reason of insults offered her by a negro woman in charge of the waiting room of the depot in Fort Worth during June, 1905. The court finds that, while the plaintiff was away from the depot on business, the negro became very angry with his wife on account of one of the plaintiff's small children spilling water upon the floor. Mrs. Luther told the woman it was an accident, as the child did not know there was water in the cup, whereupon the woman called her a liar and said other abusive things to her, from the effect of which Mrs. Luther is alleged to have suffered nervous prostration. The judgment of the lower court was affirmed. Justice Neill, who wrote the decision, saying in part:

"The outrageous language and conduct of the negro woman, whether dominated by negligence or not, were, because done by her in discharge of the duties of her employment, acts for which the appellant, as a common carrier, is responsible and liable to plaintiff for all the damage proximately flowing therefrom."

ARIZONA MAN SHOTS DESPOILER OF HOME

MIGUEL VALENZUELA KILLED
NEAR PHOENIX BY INJURED
HUSBAND, BENITO LOPEZ.

Miguel Valenzuela was shot and killed at Arlington, near Phoenix, Saturday afternoon by Benito Lopez. The tragedy was due to jealousy on the part of the husband, says the Phoenix Gazette.

He came home and found his wife in the loving embrace of Valenzuela. He ordered the latter to leave the premises but Valenzuela declined to go. Lopez then took a rifle and aiming at Valenzuela fired.

The woman sought to save the life of her unlawful lover and sprang forward in an attempt to thrust the rifle aside. She got hold of the muzzle of the weapon just as it was discharging and the bullet passed through her hand, entering Valenzuela's stomach. The latter walked from the place apparently not seriously hurt but the wound had pierced his intestines and in a short time he began to feel the effects of his wound. He died yesterday afternoon.

FALLING HAIR STOPPED.

Baldness Cured by Destroying the Parasitic Germ That Causes It.

Baldness follows falling hair, falling hair follows dandruff, and dandruff is the result of a germ digging its way into the scalp in the root of the hair where it saps the vitality of the hair. To destroy that germ is to prevent as well as cure dandruff, falling hair, and, finally, baldness. There is only one preparation known to do that, Newbro's Herpicide, an entirely new, scientific discovery. Wherever it has been tried it has proven wonderfully successful. It can't be otherwise, because it utterly destroys the dandruff germ. "You destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. R. H. Briggs & Co., special agents.
